OLD BUSINESS

Commissioner Stauder stated that there was no discussion needed for the ESDA radios as it will be a small bill. Stauder also stated that Joe Gasparich is working with Dan Easterday to continue working on the tornado siren so that it can be activated through a mobile app. Mr. Gasparich will also be looking at grants for siren replacement.

NEW BUSINESS

Andy Hanfland with Farnsworth Group took the time to ask if the Council had any questions that Farnsworth could answer about the City aquifers, water plant and waste water plant. Commissioner Glenn stated he had asked Eric Emmerich to come so he could hear what EJ had proposed to the City in the past because he had remember someone mention that the City aquifers would eventually cause problems for the City. Mr. Hanfland explained that Farnsworth Group has done work with the City of Nokomis for 100 years and had conducted many studies on the City's Aquifers. Andy went on to explain that when the new water plant was build it was made specifically for the City of Nokomis and both of its aquifers. The air strippers are here to treat the water we have and dose the job efficiently. The aquifers have been serving the town for over one hundred years though different populations and they have not given us and inclination of not being able to serve the community. There is also no sign that they are not capable of serving our community for another hundred years. Mr. Hanfland stated that at one time the City had even tried to get access to a property north of town to drill for another one however that land at the time was tied up in a trust. Mr. Hanfland stated he has full confidence in our system. Commissioner Glenn stated he was questioning the cost factor of running a plant and if it was cheaper for someone else to run the plant and provide water vs running our own. Commissioner Stauder then let Commissioner Glenn know that the loan is to replace the water main, Roger Nuxoll also mentioned that the main would still need fixed even if someone else was to run our plant and that is at the City expense. Commissioner Glenn would still like to hear what Eric from EJ has to say. There was than a discussion about the grants and projects that are in the works to update the water plant. Roger let the Council know that with the grant and loans we are applying for the plant is budgeted to get and estimated 1.3 million in updates and has a project total of 3.5 million for the EPA loan they have applied for. With no other discussions on this matter Mayor Holiday requested a motion to enter executive session.
