SECTION 2. Purpose and Intent.

- A. **Purpose.** It is the purpose of this Ordinance to promote and protect the public health, safety, and general welfare by providing for the regulation of the planting, maintenance, and removal of trees, shrubs, and other plants within the City.
- B. **Intent.** It is the intent of the City Council that the terms of this Ordinance shall be construed so as to promote the planting, maintenance, restoration and survival of desirable trees, shrubs, and other plants within the City; and the protection against personal injury and property damage caused or threatened by the improper planting, maintenance or removal of trees, shrubs and other plants within the City.

SECTION 3. Administration. The Nokomis Natural Resource Committee (referred to as "Committee") shall be responsible for the administration of this Ordinance.

SECTION 4. Duties and Responsibilities. It shall be the responsibility of the committee to study, investigate and develop and/or update annually, and administer a written plan for the care, preservation, pruning, planting, removal or disposition of trees and shrubs on City property, both along streets and in other public areas. The Committee is also authorized to cooperate with owners of private property within the City to accomplish the purposes of this Ordinance. It also may, with the permission of the City, any other applicable governing body, and any affected landowner, cooperate with any owner of property adjacent to or near the entrances to the City in accomplishing the purposes of this Ordinance. Such plan shall be presented annually to the City Council and upon its approval shall constitute the official comprehensive tree plan for the City. The Committee, when requested by the City Council, shall consider, investigate and report on any special matter or

question coming within the scope of its duties. The Committee shall report to the City any violations of this Ordinance, which come to its attention.

SECTION 5. Designation of Advisory Group. The Committee may designate an advisory group to make recommendations in respect to the Committee's duties under this Ordinance.

SECTION 8. Public Tree Care. The City shall have the right to plant, prune, maintain, and remove trees, plants, and shrubs on public property in keeping with the purpose and intent of this Ordinance. Property owners may plant trees on public property that lies between their property and the street provided that the selection and location is permitted by this Ordinance and the rules of the Committee.

SECTION 9. Tree Topping. It shall be unlawful for any person, firm, or city department to top any tree on public property without the written permission of the Committee. Topping is defined as the severe cutting back of limbs to stubs larger than three inches in diameter within the tree's crown to such a degree as to remove the normal canopy and disfigure the tree. Trees severely damaged by storms or other causes, or trees under utility wires or other obstruction where other pruning practices are impractical are exempted from this prohibition.

SECTION 10. Pruning and Corner Clearance. Every owner of any tree overhanging any street or right-of-way within the City shall prune the branches so that such branches shall not obstruct the light from any street lamp, obstruct the view of any street or intersection or obstruct the walking area above a sidewalk. The City shall have the authority to take the necessary steps to enforce this provision if a property owner fails or refuses to do so.

SECTION 11. Interference with Committee.
